Personal Info.

Degree Bachelor of Science
Graduate School Zhongshan University(A.k.a. Sun Yat-sen University)
Major Computer Science
Address Room 336,Zhishanyuan #2,Zhongshan University,University Mega Center(Higher Education Mega Center),Guangzhou,Guangdong, China

Education

7/2004–9/2008 **Bachelor**, *Zhongshan Univerisity*, Guangzhou.China, .
Zhongshan University is a.k.a. Sun Yat-sen University,SYSU
1/2007–6/2007 **(Exchange)**, *The Hong Kong University of Science & Technology*, Hong Kong, .

Languages

Cantonese **Native**
Mandarin **Native**
English **Fluent,CET-6,SET**

Experience

Internship

Summer,2007 **System & network administrator**, *Feiteng Corp.*, Shaoguan.
Worked as System & network administrator to help the company to design,install and manage systems and networks of some department or units in the nearby area.

Miscellaneous

Spring,2007 **Exchange student**, *HKUST*, Hong Kong.
I participated in the exchange program between SYSU and HKUST in Spring Semester,2007
Summer,2006 **Team leader**, The social activity 'Finding footprints of SYSU alumni',organized by SYSU alumni association.

Academic Awards

- First class, Excellent Student Award of Department of Computer Science, Zhongshan University,2006
- First class, Excellent Student Award of Department of Computer Science, Zhongshan University,2005
- First class, Excellent Student Award of Department of Computer Science, Zhongshan University,2004
- 3rd place in Computer Programming Contest, Zhongshan University,2006

Computer skills

- Strong algorithm and data structure knowledge. Fine programming style. Insight of OOP, know about AOP
- Master with C/C++/Java design, coding and debugging. Experienced with IDE/compiler such as Netbeans, Eclipse, VC++, gcc, etc.
- Substantial knowledge of compiler construction,finite automata theory. Good knowledge of JFlex/flex and JavaCUP/yacc.

- Good Python programming skills, knowledge of 80x86 assembly language.
- Experienced with C developing, system programming, shell scripts and platform applications under Linux.
- Experienced with network programming under Windows/Linux and C/S structure software design.
- Be familiar with SQL. Experienced with ERD database design and operating experience of Oracle 10g administration.
- Substantial knowledge of website development and Web 2.0. Well-learned knowledge of HTML, CSS, JavaScript. Experienced with ASP.net, JSP,PHP.

Interests

- | | |
|--------------|--------------|
| ○ Basketball | ○ Swimming |
| ○ Guitar | ○ Reading |
| ○ Movies | ○ Travelling |

Self-asssement

Interested in Computer Science since childhood, he chose Computer Science Department for my bachelor's degree. Now he's working hard on many aspects of Computer Science. All kinds of interesting topics related to CS are his favorites. He's a person who is always active and eager for knowledge, and has enthusiasm in science research and engineering. Also he is good at communicating with others, which often made him act as team leader in many projects of courses. Born in Guangdong, his native language is Cantonese, but his Mandarin is also excellent, if not better than Cantonese. He also learned English well and is fluent in English, and he was once team leaders in some projects of courses during his exchange time in HKUST. He like making experiments, and is always willing to do extra bonus of the projects or homework, even developing his own projects to enhance his experiment skills. For the daily studying, he is diligent enough to get high score in his college life, which made him in the top class of the major and many rewards are given. Many interests were developed during this time too. He's been so keen in computer science that he desperate to have high level research and practice beyond the theory of books. Being a excellent scholar, or, say, person with ability is his ultimate goal.
